

I have recently retired and bought 2 HD TV's. Why should I have to bear the cost of copy protection that will ultimately be ineffective? What about all the people that already bought HDTV who now have to spend MORE to get full broadcast quality on HDTV if this system is approved? Make the industry pushing for these ill-conceived provisions reimburse the working-class people their decision will affect (early adopters of HDTV whose system will be obsoleted) for the cost of these hardware upgrades! Mandating this HDTV copy protection system from the Federal Government is a bad idea for the consumers the FCC is mandated to serve.
